# Artceram.

Vi da il benvenuto e vi augura un piacevole  
percorso attraverso i prodotti e le ambientazioni  
proposti nel nostro catalogo.

*The Artceram Staff.*

# Company.

**WHEN.** Nel 1987 a Civita Castellana nasce Artceram. **WHAT.** L'attività inizia con la produzione di lavabi per il mercato dei mobili del settore bagno per poi svilupparsi, nel 2000, con la creazione di un'identità propria attraverso la collaborazione di designers internazionali. Nel corso degli anni, la specializzazione porta l'azienda ad orientarsi verso altri elementi tipici dell'area bagno. L'evoluzione strategica si ha nel 2006 con la collezione La Fontana che prevede per la prima volta una linea completa di sanitari ed elementi d'arredo con colonne-lavabo.

**WHEN.** In 1987 Artceram began its activity in Civita Castellana. **WHAT.** At the beginning the company focused on the production of basins for the bathroom furnishing industry. In 2000 artceram developed its own brand identity through the collaboration of international designers. Along these years the company, achieving more and more specialization, began the production of new furnishing elements for the bathroom. The strategic evolution occurs in 2006 with the brand new collection La Fontana featuring a complete collection of sanitaryware and furnishing pieces such as a column-basin structure.

## 'The' Artceram.

«Tutte le grandi band degli anni '60 iniziano col "the"» (The Commitments, Roddy Doyle, 1987)

"The Artceram" è un nuovo programma nato nel 2007 che propone una selezione di progetti già presenti nel catalogo Artceram e nuove collezioni curate da giovani designers, con quel "the" in più: parafrasando Roddy Doyle «all the good products start with a "the"». "The Artceram" è uno studio, in continua evoluzione, su prodotti originali, freschi e ambiziosi, accomunati da spirito di innovazione. Move into The Artceram!

«All the good 60s bands started with a "the"» (The Commitments, Roddy Doyle, 1987)

"The Artceram" is a new program started in 2007 that proposes a selection of products already present into the Artceram catalogue together with new collections developed by young designers, with that particular "the": rewording Roddy Doyle «all the good products start with a "the"». "The Artceram" is a project in progress on original products, fresh and ambitious, linked together from the same spirit of innovation. Move into The Artceram!

## Showroom.

Il nuovo showroom Artceram occupa gli spazi di una chiesa costruita nel 1577 dai frati cappuccini; un luogo suggestivo e adiacente agli stabilimenti Artceram, dove coesistono in un equilibrio perfetto la tradizione e l'innovazione, la storia di Civita Castellana e la sperimentazione nella produzione ceramica. Da chiesa a distaccamento degli allievi ufficiali nel 1882, fino a trasformarsi in una fabbrica di sanitari nel 900. Nel 2004, una profonda opera di restauro fa rivivere questi spazi storici che Artceram utilizza per raccontare le proprie collezioni e la propria storia.

The new showroom projected by Artceram is based in a church built in 1577 by cappuccini friars; a charming place next to the company where tradition and innovation as well as the history of Civita Castellana and the experience in the production of ceramics mingle together in a perfect balance. From church to distaccamento degli allievi ufficiali in 1882 till the turning into a factory producing sanitaryware in 1900. In 2004 after a deep restoration the church returns to life and Artceram decides to use this space in order to present its collection and tell about its history.

# Designer.

«Con design si indica l'insieme delle attività di ricerca, ideazione e progettazione, finalizzate alla realizzazione di un qualsiasi prodotto, sia materiale che immateriale. La parola, solitamente utilizzata come abbreviazione del termine anglosassone industrial design (disegno industriale), può essere tradotta più correttamente con l'espressione "progettazione per la produzione industriale"».  
*(Wikipedia, [www.wikipedia.it](http://www.wikipedia.it), agosto 2007)*

## Carlo Urbinati.

Carlo Urbinati (Roma, 1949) architetto e designer, ha frequentato la facoltá di architettura seguendo anche un corso di arredamento e scenografia. Nel 1972 inizia l'attività di product designer collaborando, sia autonomamente che unito allo studio lenci, con aziende italiane nel settore del mobile, dell'imbottito, dell'illuminazione, del bagno e della cucina.

Carlo Urbinati (Rome, 1949) architect and designer, attended the faculty of architecture and also a course of interior design and scenography. In 1972 started his activity in product design, working alone and together with studio lenci, for Italian manufacturers of furniture, lighting, bathroom and kitchen.

## Meneghello Paolelli Associati.

Sandro Meneghello e Marco Paolelli, entrambi classe 1979, si sono laureati al Politecnico di Milano nel 2004, sotto la guida di P. Rizzato e R. Palomba. Collaborano con l'Artceram dal 2005 e la loro attività all'interno dell'azienda spazia dalla progettazione del prodotto alla sua comunicazione, nonché all'ideazione di stand per le fiere e di corner espositivi.

Sandro Meneghello and Marco Paolelli, both born in 1979, graduated at the Politecnico di Milano, under the guidance of P. Rizzato and R. Palomba. since 2005 they have collaborated with Artceram, their work with the company ranges from product design and communication, to stand design and in-store display.

# Naked System.

Naked è un lavabo a bordo fino che nasce come estremizzazione e virtuosismo nella lavorazione della ceramica. Un lavabo utilizzato come vasca di grandi dimensioni in cui tutta l'ampia superficie diventa catino contenitivo. Per Naked sono stati creati Slitta e Trapezio due mobili bagno "nudi", che lasciano a vista il telaio realizzato in legno rovere, rovere sbiancato e wengé. Un progetto che richiama la linearità, l'eleganza e l'essenzialità del design scandinavo. I due telai hanno un ampio piano di appoggio e una barra portasalviette in legno.

Naked is a basin which represents an extreme result in the ceramic process, thanks to its thin rim. It can be used as a sink of wide dimensions for its large basin.

For this item, we have created two "naked" bathroom furnitures Slitta and Trapezio with a "open" frame in oak, washed oak and wengé. A project which reminds the essentiality, the elegance and the simplicity of the Scandinavian design.

The two frames have a wide shelf and a wooden towel bar.

# Light.

Designed by Luciana Di Virgilio | v+t studio

Light è un lavabo centrostanza che "boicotta" i canoni visivi classici del lavabo e ne amplia quelli funzionali. Il progetto di Luciana Di Virgilio dello studio v+t gioca alla "non-definizione" sfidando il modo comune di guardare la realtà. Light è realizzato in Livingtec nelle finiture bianca lucida o bicolore bianco e nero.

Light is a washbasin that rejects the idea of the usual sink design and amplifies its functionality. This project by Luciana Di Virgilio of v+t studio, challenges the common way of engaging with reality.

Light is made of Livingtec available in white or in black&white gloss finish.

# Back.

Compatto e di profondità davvero minima, il nuovo lavabo Back è presentato nelle due versioni da parete, a terra o sospesa. La rubinetteria può essere a parete oppure appoggiata a destra del lavabo. Realizzato in Livingtec, nelle finiture bianca lucida o bicolore bianco e nero.

Compact with a very little depth from the wall, the new washbasin Back is presented in two versions: back to wall or wall-hung. The faucet can be placed on the wall or to the right of the basin. Back is made of Livingtec, available in white or in black&white gloss finish.

# Cup.

Una citazione leggera, il lavabo centrostanza Cup é un ironico omaggio alla tazzina da caffé, icona italiana per eccellenza, espressione di un quotidiano normale dove il manico della tazza diventa un "utile" porta salviette.

Un chiaro riferimento alla Pop Art che attinge provocatoriamente i propri soggetti dall'universo dell'uso e del consumismo quotidiano. Realizzato in Livingtec, nelle finiture bianca lucida o bicolore bianco&nero.

A light citation, Cup is a freestanding washbasin, an ironic tribute to the coffee cup, the Italian icon for excellence. The handle of the cup becomes a "useful" towel rail. A clear allusion to Pop Art, which taps into its provocative subject from the universe of consumerism. Cup is made of Livingtec in white colour, or in black and white gloss finish.

# Wave.

Wave é un sistema che contiene lavabo, rubinetteria, specchio ed armadietto in uno spazio decisamente contenuto. Un'unica fascia larga 50 cm nasce a muro, si modula armonicamente nella parte centrale per creare un bacino fluido, sale parallelamente alla parete integrandosi con lo specchio. La morbidezza del lavabo é esaltata dal materiale bianco opaco che trasmette una sensazione di soft touch. Wave é realizzata in Korakril™.

The Wave system is comprised of a washbasin, taps and fittings, mirror and cabinet all contained within a very small space. A single 50 cm wide strip develops from the wall, harmoniously modulating the central part to create a fluid basin, then moving in parallel up the wall to become integrated with the mirror. The softness of the washbasin is exalted by the opaque white material that transmits a "soft touch" feel. Wave is made using Korakril™.

washbasin system in Korakril | 50 x 54 h. 162

# Hall.

Hall: non un lavabo centrostanza, ma una reinterpretazione del lavabo a colonna. Nel proprio ventre un foro morbido e sinuoso scalfisce la materialità della ceramica, violata e risucchiata al proprio interno come una grossa goccia d'acqua che si infrange su di una superficie. Hall si appoggia a muro nascondendo i flessibili dell'acqua e lo scarico e mantenendo così una perfetta pulizia formale.

Hall: is not a freestanding washbasin, but a reinterpretation of the basin to the column. In its belly a soft, sinuous hole scratch the materiality of ceramics, violated and sucked their numbers as a big drop of water that breaks on a surface. Hall relies on hiding the flexible wall and the discharge of water and so keeping a clean form.

back to wall washbasin | 60 x 40 h. 85

# Sharp.

Sharp nasce come elemento architettonico, una colonna estrusa, messa in torsione e sfaccettata. È un progetto formalmente rigoroso, freddo e tagliente. La rotazione del catino rispetto alla base crea una rete di punti attraverso i quali vengono costruite le otto superfici triangolari che compongono la struttura. Sharp può essere utilizzato sia freestanding, con scarico a terra che appoggiato a parete, con scarico a muro. Il lavabo è infatti studiato in modo tale che la sfaccettatura posteriore sia complanare alla parete, consentendo così il perfetto accoppiamento lavabo-parete. La vasca completa le sfaccettature delle pareti, facendole convogliare verso lo scarico dell'acqua.

Sharp è realizzato in Livingtec nella finiture bianca lucida.

Sharp is an architectural element, an extruded column that makes a twist and split in to faces. It is a rigorous, cold and sharp washbasin. The rotation of the basin from the base creates a network of points through which the eight triangular surfaces that compose the structure are created. Sharp may be used free-standing, with the drain on the ground, and back to wall, with the drain on the wall. The design of the basin allow the back face to be parallel to the wall.

Sharp is made of Livingtec available in white gloss finish.

# Cow.

Avete mai visto dei sanitari con quattro gambe? Cow è una nuova linea di sanitari e lavabi diversa da tutte le altre, caratterizzata da quattro piedi di appoggio. La primaria fonte d'ispirazione è il mondo neoclassico in cui le gambe del mobile sono l'elemento caratterizzante il design. Nell'evoluzione stilistica i sanitari Cow assumono una struttura ibrida tra sospeso e a terra, una forma ammiccante e giocosa dalle linee morbide che ricordano la sagoma di una mucca: da qui il nome della collezione. Cow include i sanitari, il lavabo centrostanza, la semicolonna sospesa ed infine i lavabi d'appoggio e sospesi in due misure. Eccetto il lavabo centrostanza in Livingtec (nelle finiture bianca lucida o bicolore bianco e nero), il resto della collezione è in ceramica.

Have you ever seen a sanitaryware range with 4 legs? Artceram has made it for the first time with Meneghelli Paolelli Associati who amaze again with the Cow project: a new sanitaryware range very different from any other, characterized by a 4-legs support. The main source of inspiration is the neoclassical world in which the furniture are characterized by the 4 legs. In the evolution of style, the Cow collection has a hybrid structure between wall hung and back to wall sanitaryware; an amazing and playful shape whose soft lines remind the shape of a cow: here's the name of the collection. Cow includes sanitarywares, the freestanding basin, the wall hung basin and the wall hung/countertop washbasins in two different sizes (60 and 80). Except for the freestanding basin which is in Livingtec (available in white or in black&white gloss finish), the whole collection is in ceramic.

# Jazz.

Sintesi tra classico e contemporaneo, tra linee morbide e segni decisi, la collezione Jazz interpreta sanitari e lavabi d'arredamento che occupano lo spazio abitativo occhieggiando agli elementi degli anni '60 - il lavabo a colonna - ai tagli diamante dell'art decó, alla leggerezza minimal dei sanitari sospesi di ultima generazione. Fortemente contrastati dalle ombre dei tagli e dai bianchi e neri, gli elementi e gli ambienti rimandano alle atmosfere evocate. Con questo fortunato mix, Art Ceram propone una visione contemporanea del bagno, ricca di stratificazioni e molteplicitá. La collezione comprende elementi in ceramica il lavabo colonna in due misure (60 e 70 cm), il lavabo da appoggio, i sanitari sia sospesi che a terra, il vaso monoblocco. Il lavabo centro stanza é in Livingtec (nelle finiture bianca lucida o bicolore bianco e nero)". La serie si arricchisce ulteriormente con gli ultimi arrivati: il lavabo sospeso 70 e la consolle con gambe in ceramica.

A compendium of the traditional and the contemporary, soft lines and strong signs: the Jazz collection interprets sanitaryware and washbasins with an eye on the Sixties - the column washbasin - the diamond shapes of art deco, the minimal lightness of last generation suspended sanitaryware. The elements and ambients are filled with references to the atmospheres evoked, strongly contrasted by the shadows of the shapes and the blacks / whites. This exciting mixture makes it possible for Art Ceram to propose a contemporary vision of the bathroom which is multi-layered and filled with variety. The collection includes ceramic elements, a column washbasin in two sizes (60 and 70 cm), a countertop washbasin, wall-hung and back to wall sanitaryware, a close-coupled wc and freestanding washbasin in Livingtec (available in white or in black&white gloss finish). The series is further enriched with the latest arrivals: a wall-hung washbasin 70 and a console with ceramic legs.

# | La Fontana.

La Fontana si pone all'interno del suo settore merceologico come un sistema/prodotto in grado di arredare in modo autonomo l'ambiente bagno; è un piccolo sistema/bagno che include al suo interno tutto quello che di solito viene fornito da oggetti diversi: il lavabo, la luce, lo specchio e l'armadietto. L'innovazione estetica e funzionale è il focus del progetto, insieme alla volontà di fornire un sistema autosufficiente, adatto sia per lo spazio pubblico che privato, libero dagli stereotipi del classico arredo bagno contemporaneo.

La Fontana is a complete contained space bathroom system which includes in itself all that is usually made of four distinct items. It consists of washbasin, lighting, mirror and cabinet. Typological and aesthetical innovation is the focus of the project, together with the aim of supplying a complete service suitable both for public and private spaces, functional and pleasing and free from the classic stereotypes of the contemporary bathroom furnishing.

# Blend.

Una collezione completa di lavabi e sanitari animati da una fascia in ceramica che avvolge le superfici. Un prodotto contemporaneamente dinamico e rilassante, femminile e maschile, freddo e caldo come l'acqua che scorre. Blend è una fascia di 4 centimetri che descrive la mappa superiore e divide due elementi distinti del sanitario: il catino e le fiancate. Un movimento sinuoso che nasce e muore a parete e accoglie al proprio interno il catino e il piano della rubinetteria, uniti da una superficie continua ed armonica. Le fiancate sono composte da superfici morbide ed avvolgenti che delimitano il sanitario seguendo il movimento della fascia superiore. Le superfici dolci delle fiancate vengono segnate da un taglio deciso nella parte inferiore, che conferisce vigore e mascolinità al prodotto e nel contempo lo alleggerisce e lo slancia.

Blend sanitaryware range is designed to be soft and light, shaped on the human body: is dynamic and relaxing, feminine and masculine at the same time, cold and hot like water flowing. Blend: "A surface added to two or more other surfaces to provide a continuous join between them". The icon that best represents the blend project is the 4 centimeter band that describes the upper map and splits two distinct elements of the fixture: the bowl and the sides. A sinuous movement beginning and ending at the wall and enclosing the bowl and the taps and fittings, "blended" by an unbroken, harmonious surface. The sides are gently curving and enveloping surfaces that delimit the fixture, following the rhythm set by the upper band.

# Postit.

La collezione Postit è caratterizzata dal materiale, la ceramica, e dal mimentismo delle linee con le pareti: una parte dell'accessorio sembra infatti scomparire nel muro lasciando la sensazione che sia incassata al suo interno. Gli accessori non sono più oramai un semplice complemento "accessorio" da aggiungere alla fine, ma sempre più sono parte integrante del progetto, inglobati perfettamente con la struttura architettonica del bagno. Postit si integra perfettamente con l'architettura della stanza, diventandone estensione nello spazio, ma contemporaneamente si monta come un normale accessorio senza interventi nella struttura muraria. Inoltre è una linea finalmente realizzata in ceramica, cioè con lo stesso materiale comunemente utilizzato per gli altri elementi di arredo bagno.

The collection is characterized by material, ceramics, and mimcry line with the wall: one part accessory seems to disappear into the wall leaving the impression that it is recessed inside. The accessories are not now a simple addition "incidental" to be added at the end, but more and more are part of the project, incorporated seamlessly with the architectural structure of the bath. Postit integrates perfectly with the architecture of the room, becoming spatial extent, but at the same mount as a standard accessory structure without walls. Moreover, it is finally a line of ceramic, in with the same material commonly used for other elements bathrooms.

MADE IN ITALY

A standard linear barcode is positioned below the text "MADE IN ITALY". The barcode consists of vertical bars of varying widths. The first few bars on the left are colored green, while the majority of the bars are black on a white background.
