alice ceramica è un nuovo marchio nel mondo dell'arredobagno. Progettare e produrre sanitari in ceramica è la sua semplice missione. Più difficile è riuscire a farlo innovando, sperimentando, e proponendo al mercato nuove soluzioni ed un approccio originale. Novità è il nostro valore e novità è il nostro obiettivo, e non solo nel design dei nostri prodotti, ma anche nel modo di affrontare il mercato e le sue abitudini,

spesso datate ed ancor più spesso accettate come ineluttabili. Non crediamo ai dogmi e quindi vogliamo reinterpretare il bagno ed il suo mercato in modo nuovo, diverso. Un lusso che ci possiamo permettere proprio perché siamo un'azienda giovane, duttile e dinamica. Esistono grandi spazi da esplorare, anche per lo spazio più raccolto e personale di tutti, il bagno. Questa è la nostra missione.

alice ceramica is a new brand in the world of the bathroom. To plan and to produce sanitary in ceramics is its simple mission. More difficulty is to succeed in doing innovating it, experimenting, and proposing to the market new solutions and an original approach. Novelty is our value and novelty it is our objective, not only in the design of our products, but also in the way to face the market and its habits, often dated and still more often approved as

ineluctable. We don't believe in the dogmas and therefore we look at the bathroom and its market from a different point of view. A luxury that we can allow there really because we are a young firm, supple and dynamics. Great spaces exist to explore, also for the most picked and personal space of everybody, the bath. This is our mission.
